

CARRISREELS

MAGNET WIRE

MAGNET WIRE REELS

Since 1980, Carris has included plastics to supplement wood, steel, hardboard, and other materials offered in our product line. Today, plastics is an area of total focus for creative and efficient packaging solutions. As much as 75% of our feedstock is recycled materials—yielding consistent and cost-efficient products.

Carris offers an expanded range of packaging for magnet wire and fine wire producers. This family of products includes sizes from 6" to 24" and weight capacities from 6 lbs. up to 500 lbs. Reels are designed to ensure multiple use for smooth, accurate, balanced high-speed winding and trouble-free de-reeling.

Our 250 and 500 lb. packages are assembled with as many as 10 bolts to provide consistent tensioning for smaller wire gauges, precluding wire entrapment. This modular design enables cost-efficient component replacement through the multiple "trips" these packages will afford you.

SIZE	REEL WEIGHT (LBS.)	APPROX. CAPACITY (LBS.)	# PER PALLET
6 x 3½ x 3½	0.7	6	1,200
6 x 6 x 3¾	1.1	10	720
8½ x 9¾ x 9	1.9	45	200
10 x 11 x 12	3	100	150
15 x 16 x 12	10	250	45
15 x 16 x 24	13.6	500	27
24 x 6 x 14*	20	250	36

*Steel barrel options on our 24" reels include any traverse to meet your needs.

We offer many different products beyond our magnet wire and fine wire group—as well as contract molding. Our goal is to provide our customers with innovative packaging design and solutions, including:

- 3D Solid Modeling
- Mold Fill/Cool Analysis
- Finite Element Stress Analysis
- Field technical support
- Quickest shipment of orders in the industry

Plant locations:

- Rutland, Vermont
- Fincastle, Virginia
- Monterrey, Mexico
